2. Laser & Skin Surgery Center of Northern California, Sacramento, CA, USA

3. Gentile Facial Plastic Surgery & Aesthetic Laser Center, Youngstown, OH, USA

Highlights

- 15 subjects (51-70 years old) received four weekly 20-minute EMFACE Eye treatments
- 3D photographic assessment of eye bags volume reduction and crow's feet severity
- Dark circles color analysis using semi-automated software based on 2D photographs
- The treatment reduces excess under-eye volume and enhances overall aesthetic appearance
- No adverse events were reported

Reduction in Eye Bags After the Last Treatment

Evaluation of a 70-year-old female subject showed a reduction in under-eye volume after treatment. The subject also reported improvements in skin texture and a reduction in dark circles.
